## CPE Lyon invite you to the 18th edition of the Company Open Day

### Facts and figures about CPE Lyon

A total of more than 1450 students study two specialities at CPE  
• Chemistry and process engineering (CGP section)  
• Electronics, telecommunications, networks and informatics (ETI and IRC)

#### Relationship with the Industry

Students who take advantage of all the internship opportunities available at CPE, start their career with two years work experience. More than 90% of the CPE students spend a year in industry or research between the second and third year at school to do a long internship, and 87% of those students do it outside France.

CPE Lyon has 900 partnerships with industrial societies and also a network of 6000 former students.

#### Research

24000m<sup>2</sup> of laboratories  
9 partnerships with other laboratories  
4 departments for teaching and research  
400 scientists and teachers, 150 Ph.D. students  
30 patents each year

### The Company Open Day

The « JEntr'p » (Company Open Day association) is a 17-student team who are in charge of organising the forum « Journée Entreprises CPE Lyon ».

This is also:

- more than 1400 students,
- more than 70 companies and institutions from the largest international companies to small businesses operating in almost every business sector,
- offers for internships and first jobs,
- a meeting point for students and professionals,
- workshops on subjects directly related to the engineering world,
- events, such as distribution of prizes and also grants.

### Your benefit in the Company Open Day

In a warm and welcoming atmosphere, you will be able to meet motivated and dynamic students, among them present and graduate students. All of them have a rich experience in the professional world thanks to their internships.

Organized by students for the students the "Journée Entreprises" is a perfect moment to share information between students and companies, French or international.

You will then be able to efficiently and easily present your company to the students and propose internships or first jobs.

We are awaiting your positive response for this 18th edition !
